

Customer-specific Parts in Accordance with Drawing

Customer-specific parts in accordance with drawing

We cut, punch or plot precisely in accordance with your wishes. All you have to do is provide us with the sketch or drawing and we will manufacture by the most cost-effective means.

Highlights – Customer-specific parts in accordance with drawing

Cut into strips

We offer ski foil strips in widths of 6 to 1.220 millimetres and deliver them in the right thickness based on the material defined.

When only punching is the answer

We punch the precise shape required for your project. Whether it's for ski tip or tail inserts or below the binding plates, from small batches to series production.

Individual and simple

We manufacture to suit your individual needs – it's that simple. You provide us with the sketch or drawing, we discuss the best solution with you and manufacture samples. Production starts once we receive your approval.
